## FOREWORD

*Prime Contract Awards by Region and State* is published annually. This issue provides information on the geographical distribution of Department of Defense prime contract awards over \$25,000 for Fiscal Years (FY) 1985, 1984, and 1983 by the United States census region and state.

This information is detailed in ten tables and three figures showing:

1. The net value and percent distribution of awards, by region and state, for FY 1985, 1984, and 1983;
2. The net value and percent distribution of awards within the seven major hard goods programs, by region, for FY 1985, 1984, and 1983;
3. The net value and percent distribution of awards in the 25 major procurement programs for each state for FY 1985, 1984, and 1983; and
4. Data on research, development, test, and evaluation (RDT&E) awards by region and state according to the type of contractor for FY 1985, 1984, and 1983.

## INTRODUCTION

This report contains a variety of data on the distribution of prime contract awards over \$25,000 within the United States, by census region and state, for Fiscal Years (FY) 1985, 1984, and 1983.

This publication is divided into four Parts: Part I, Distribution of Prime Contract Awards Over \$25,000 by Region and State; Part II, Distribution of Prime Contract Awards Over \$25,000 for Major Hard Goods; Part III, Distribution of Prime Contract Awards Over \$25,000 by State; Part IV, Distribution of Prime Contract Awards Over \$25,000 for Research, Development, Test, and Evaluation (RDT&E).

Prime contract data are not a means of measuring the total volume of defense work performed within a state, as a substantial amount of the work may be subcontracted.

## Notes on Coverage

Contract work is not necessarily performed in the state where the contract is awarded. Most manufacturing contracts have been attributed to the contractor's location where the product will be processed and assembled. When contract work has been performed at more than one plant, the contract has been attributed to the location where the largest dollar amount of work was produced. Both construction and service contracts have been attributed to the state where the work is to be performed. Contracts for transportation and communication services in most cases have been attributed to the state where the contractor's home office is located. For purchases from wholesale or other distribution firms, the location is the contractor's business address.

Amounts not distributed by state include contract actions of \$25,000 or less, contract actions performed in classified locations, Foreign Military Sales (FMS) contract actions entered into overseas, and other contract actions for work performed outside the United States.

Some special characteristics of the data on prime contract awards by procurement program category should be noted:

1. The Electronics and Communication Equipment category includes all electronics procured separately under prime contract. However, in the case of Missiles and Space Systems or Aircraft Engines and Related Spares, electronics work is often a basic part of the assembly prime contract; therefore, awards for electronics are included in the statistics for these categories.
2. Contracts for all other types of equipment and parts for repair, maintenance, overhaul, modification, or other services, which can be identified with a specific category, are assigned to that category. As an example, the installation or inspection of equipment at ballistic missile sites is recorded as missile work in the state where the site is located. However, the contract for manufacturing such equipment is reported according to the location of the manufacturer's plant. Therefore, aircraft, missile, or other program contracts may be reported in states where there are no weapon assembly plants but where bases, laboratories, or suppliers of instruments, parts, or support equipment may be located.
3. The dollar value shown for each category includes the RDT&E work associated with it. RDT&E coverage includes research, exploratory development, advanced development, engineering development, operational systems development, and management and support. Full definitions for each of these categories are provided in Federal Acquisition Regulation 35.001.
4. Figures in these tables may not add up due to rounding.

## Highlights

Total prime contract awards in FY 1985 totaled \$163,725 million, an increase of \$17,693 or 12.1 percent over FY 1984. Awards over \$25,000 for work performed within the United States, by census region and state, are shown in this report. These awards totaled \$140,096 million in FY 1985. The kinds of awards not included in this report (see Notes on Coverage) are distributed as follows:

Type of Awards	Awards in FY 1985		Awards in FY 1984		Awards in FY 1983	
	Millions	Percent	Millions	Percent	Millions	Percent
TOTAL - Prime Contract Awards	<u>\$163,725</u>	<u>100</u>	<u>\$146,032</u>	<u>100</u>	<u>\$140,483</u>	<u>100</u>

# **PART I** **DISTRIBUTION OF PRIME CONTRACT AWARDS** **OVER \$25,000 BY REGION AND STATE**

The U.S. census regions are shown in Figure I-1 (page 4). The three regions that received the largest share of the awards in FY 1985 were the Pacific (24.3 percent), the South Atlantic (16.1 percent), and the Middle Atlantic (12.9 percent). (See Figure I-2, page 5.) Those regions that make up the eastern part of the United States received a total of 52.4 percent of the awards. The western regions received the remaining 47.6 percent of the awards.

Table I-1 (page 6) shows the net value and percent distribution of awards, by region and state, for FY 1985, 1984, and 1983. The two regions showing the largest increases in the net value of total awards over FY 1984 were South Atlantic, up \$4.311 million or 23.7 percent and East North Central, up \$3.101 million or 30.2 percent. One region, East South Central, showed a decrease of \$539 million or 11.7 percent from FY 1984. The remaining regions had award increases in FY 1985 ranging from 19.6 to 4.6 percent.

In individual states, Maine nearly doubled its awards from FY 1984 to FY 1985. Seventeen other states showed award increases of between 20 and 50 percent. Twenty-five states had award increases of less than 20 percent. The remaining eight states all had award decreases from FY 1984 to FY 1985.

The following table shows those states with the largest percentage change in awards from FY 1984 to FY 1985.

STATE	PERCENT CHANGE	DOLLAR CHANGE (\$000)
Maine	79.7	\$ 424,401
Wyoming	69.3	51,005
North Dakota	66.4	30,942

## **PART II**

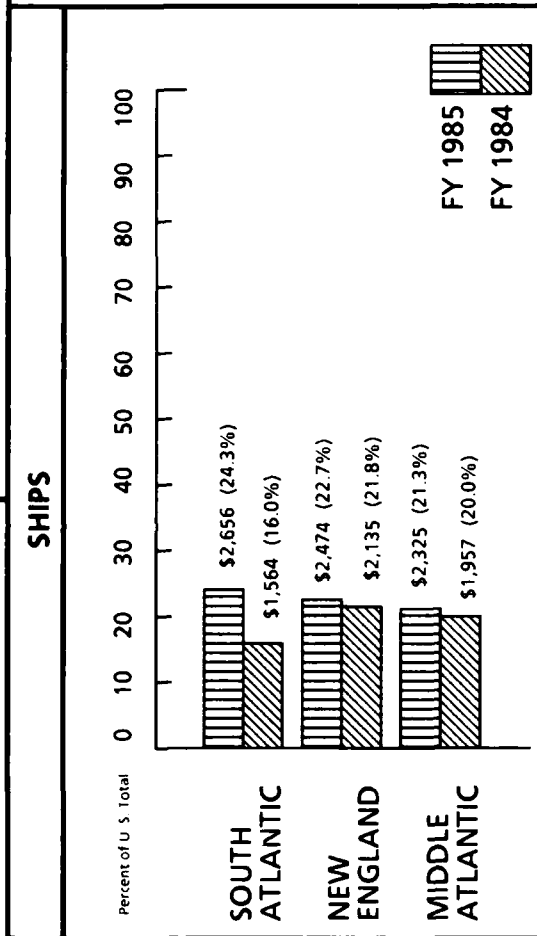

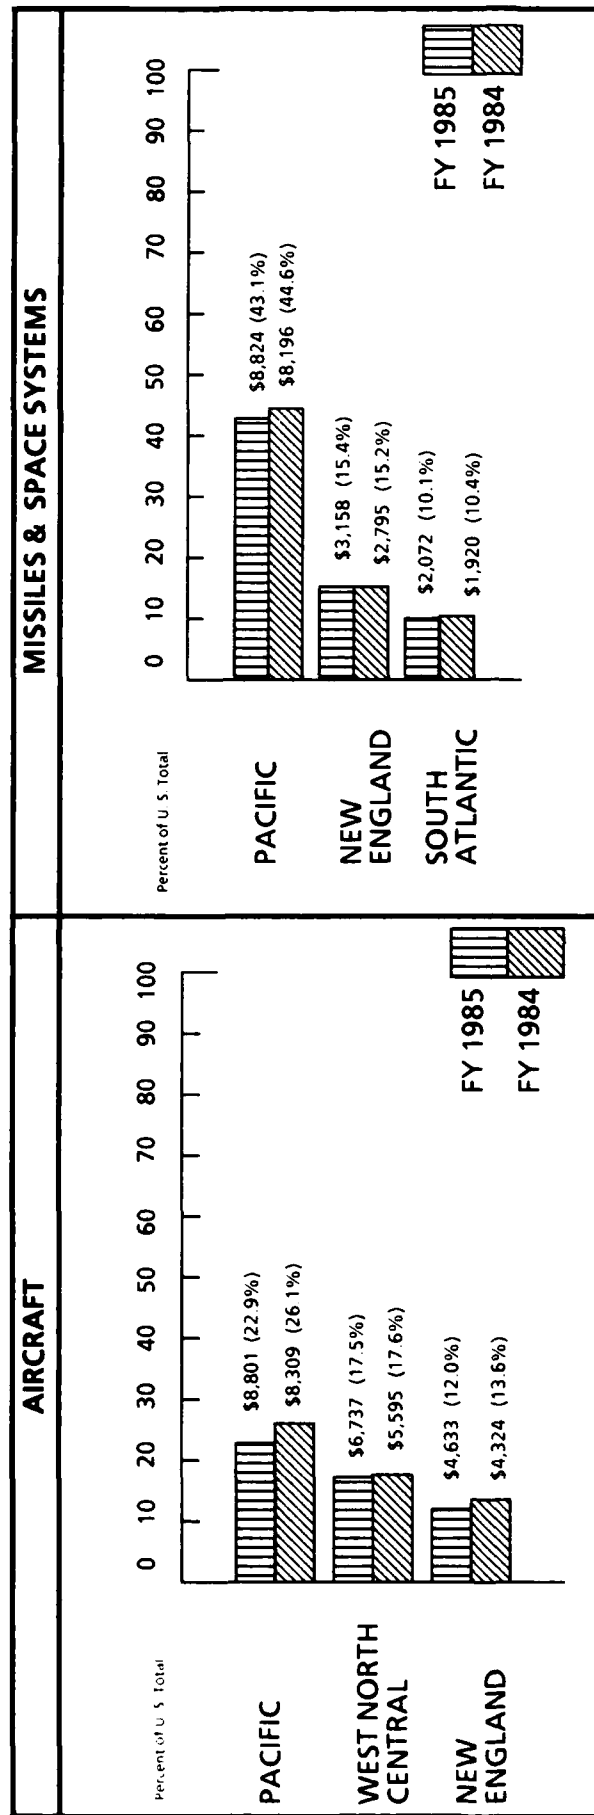

### **DISTRIBUTION OF PRIME CONTRACT AWARDS OVER \$25,000 FOR MAJOR HARD GOODS**

Figure II-1 (page 10) shows the top three regions for FY 1985 in each of the seven major hard goods programs as well as the net value and percent distribution of awards in each region for FY 1985 and 1984. The Pacific region ranked as one of the top three regions most frequently, placing in the top three for six out of the seven programs.

Table II-1 (page 12) shows the net value and percent distribution of awards within the seven major hard goods programs, by region, for FY 1985, 1984, and 1983. Table II-2 (page 14) shows that awards within these hard goods programs accounted for 76 percent of all prime contract awards in FY 1985, a one percent increase over the FY 1984 figure. However, the net value of awards in all hard goods programs experienced a 13.9 percent increase in FY 1985. The percentage distribution of awards within the seven major hard goods programs, both as a percentage of all awards and as a percentage of all hard goods awards, remained relatively steady during the 3-year period.

Figure II-1

### **PART III**

## **DISTRIBUTION OF PRIME CONTRACT AWARDS OVER \$25,000 BY STATE**

The net value and percent distribution of awards in each of the 25 major procurement programs for the fiscal years 1983 through 1985 for individual states are provided in Tables III-1, beginning on page 17. Table III-2 (page 69) shows the five leading states in each of these 25 procurement programs for FY 1985. While California ranked first in eight of the programs, there was a broad representation of other states in the top five rankings. A total of 34 states appear in the table, one less than in FY 1984. In FY 1985, 14 states ranked first in one or more of the programs.

## PART IV DISTRIBUTION OF PRIME CONTRACT AWARDS FOR RESEARCH, DEVELOPMENT, TEST, AND EVALUATION

As shown in Table IV-1 (page 72), RDT&E awards totaled \$18,626 million in FY 1985, an increase of \$988 million or 5.6 percent over the FY 1984 figure. The ratio of RDT&E awards to total awards remained relatively the same in FY 1985 as in FY 1984. Table IV-1 also shows that the distribution of RDT&E awards among the three types of contractors did not change significantly from FY 1984 to FY 1985.

Table IV-2 (page 73) shows the net value and percent distribution for both total awards and RDT&E awards, by region, and the percent distribution of RDT&E awards within each region for FY 1985. Seven of the nine regions received more RDT&E awards in FY 1985 than in FY 1984. The three regions that had the largest dollar increases were South Atlantic (\$535 million), Middle Atlantic (\$481 million), and Mountain (\$249 million). In terms of the distribution of RDT&E awards, the Pacific region showed the most significant change. In FY 1984, 41.1 percent of RDT&E awards were in this region; this percentage decreased to 36.6 percent in FY 1985.

The ratio of RDT&E awards to total awards showed a decrease from FY 1984 to FY 1985. Regional RDT&E awards as a percent of regional total awards changed significantly. The four regions that experienced increases were Middle Atlantic (1.2 percent), South Atlantic (.4 percent), Mountain (2.3 percent), and East South Central (1.5 percent). The five regions that experienced decreased percentages were Pacific (2.2 percent), New England (.8 percent), West North Central (1.5 percent), West South Central (.5 percent), and East North Central (1.7 percent).

Tables IV-3, IV-4, and IV-5 (pages 74, 77, and 80, respectively) show the net value and percent distribution of prime contract awards for RDT&E work, by region and state, according to type of contractor (educational institutions, other nonprofit institutions, and business firms), for FY 1985, 1984, and 1983, respectively. As shown in Table IV-3, the four states receiving the largest share of RDT&E awards in FY 1985 were California, Massachusetts, New York, and Maryland.
